FLOOR COVERING TOOLS

No. 024 Rolling 24" Tool Box

This fully-featured yet lightweight 24" toolbox is made from advanced "structural foam" materials. The thick walls are very durable but weigh a lot less. The box rolls level with the ground thanks to a long, top-mounted pull handle that can be conveniently pulled along while walking. The inner tray has features that assist in carpet seaming, including a series of angled recesses which allow steam to escape while also evenly pressuring the seam. Includes a folding, recessed top carrying handle, and integral side handles for lifting with both hands. Case has three latches and a central hasp for locking. Net weight: 16 lbs.
