PrimoFlorz rugged construction, including their Maxim Shield UV cured ceramic finish permits maximum durability ensuring long lasting beauty without the use of a floor finish. The composition is either 100% virgin materials (2mm & 3mm LVP) or 100% Pro-polymer virgin PVC with fiberglass reinforced sheets (4mm - 5mm LVP) which provides excellent resistance to abrasion, chipping, cracking, and permanent indentations for heavy-duty performance. These specifications are unique and designed to help conceal most substrate irregularities, and yet allow the plank to remain flexible for fast and economical installations. Finally, The surface on our 3mm through 4.2mm LVP includes a micro bevel embossed surface to enhance the unique texture of wood, while adding slip resistance qualities to the plank while our 5mm LVP also include a distressed process.

PrimoFlorz Luxury Vinyl Planks and Tiles are the perfect choice for lobbies, office buildings, banks, healthcare facilities, residential and commercial condominiums, or wherever both function and high design are essential. Patriot Flooring Supplies has made a commitment to stock several PrimoFlorz products in its South Florida warehouse locations for quicker turnaround time and we look forward to working with you on your next project!
