Automatic Pulse-Clean Technology™

2019 PRODUCT OVERVIEW

Fully Automatic Filter Cleaning Technology.
You Turn it On and Go to Work, We Do the Rest.
Never Stop to Unclog a Filter.

INTRODUCING THE NEW

PRO SERIES

MODULAR VACUUM SYSTEM

The PRO Series is the newest addition to the Pulse-Bac line-up. The successor to the legendary 1000 Series and like the 1000 Series, it offers a large array of power and collection options. It also has new features designed to improve usability and durability. Built to capture dust generated by surface preparation equipment, power tools, manufacturing machinery and for jobsite cleanup, the PRO Series excels at work involving dust from concrete, drywall, wood, asbestos, lead paint and many other materials. With a lineage of legendary performance & innovative improvements, the PRO Series is the choice for professionals.

NEW FEATURES INCLUDE:

- **New Circuit Board Design for Improved Reliability.**
- **New Solenoids with 5X Duty Cycle.**
- **Easy Access Fuse.**
- **Better Field Serviceability.**
- **One Piece Valve Shaft. NO PINS.**
- **And More ...**

*Continuous Valve Shaft.
Pins Completely Eliminated.*

Features & Benefits

- Pulse-Bac Self-Cleaning Technology
- Durable Power Coated Steel Construction
- Modular Collection Options
- HEPA Filtration
- Non-Marking Casters
- Cyclonic Debris Management
- Easy Empty Dump Valve*
- Revolution 360 Frame*

Model	PRO-176	PRO-225	PRO-311
CFM	176	225	311
Lift	97"	110"	70"
Collection	20 gal. Tank / Bagger / Drum	20 gal. / Tank Bagger / Drum	20 gal. Tank / Bagger / Drum
Inlet	2"	2"	2"

NEW ULTRA PORTABLE BAGGER

Cyclonic Debris Management

The Cyclonic Debris Management system comes standard on all vacuum tanks, extenders and pre-separators. Our CDM system works with our pulsing technology and prevents upwards of 90% of dust and debris from ever reaching the filter. The CDM system stops dust and debris from constantly cycling up to the filters and holds it at the bottom of the tank until discarded.

**FITS ALL CURRENT
COLLECTION OPTIONS**

pulse-bac[®]
Automatic Pulse-Clean Technology™

The NEW 576 Our Most Powerful 500 Series Ever.

Introducing the newest addition to the Pulse-Bac line of dust collection solutions the 576. With **176 CFM** and **97in of lift**, this little powerhouse is an industrial strength vacuum in a compact, portable package. The 176 CFM of airflow meets the OSHA Silica Rule, Table 1 requirement of 25 CFM per inch of blade for 7" tools. With this kind of power inside the body of a 500 Series the 576 really punches above its weight.

- **176 CFM**
- **97" Lift**
- **8 Gallon Tank**
- **HEPA Filtration**
- **30 lbs.**

**A SOLUTION FOR 7" HAND TOOLS
UNDER TABLE 1 OF OSHA'S SILICA RULE**

HPLM SERIES LIGHTER. STRONGER. EASIER

What is HPLM? Put simply, it's the highest power to weight ratio you will find in a vacuum today. With the highest CFM of all the series, they weigh in at just 208lbs. HPLM vacuums supply all the power you need in a portable package that saves time and trouble. Designed to capture dust generated by surface preparation equipment, large power tools and for job site large-scale cleanup operations, the HPLM vacuums are ideal for work involving dust from concrete, sand, drywall, wood and many other non-combustible materials. A great fit for surface preparation and manufacturing, all HPLM Series is compliant with OSHA's Silica Dust Rule.

- **450-690 CFM**
- **110" Lift**
- **Longpac Bagger or 55 Gal. Drum**
- **HEPA Filtration**
- **208 lbs.**
